

## TLVs<sup>®</sup> at your Fingertips

Access to TLVs<sup>®</sup> and Gastec's complete line of pumps and detector tubes, sampling accessories and kits is just a touch away.

**GASTEC**

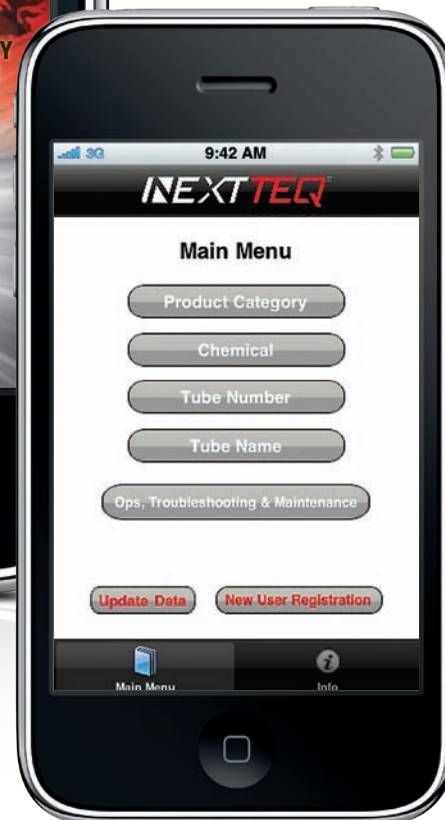

# TLVs® (TWAs, STELs, and Ceiling Values) at your Fingertips

Download the Nextteq iPhone® App today and the information you need is a tap away!

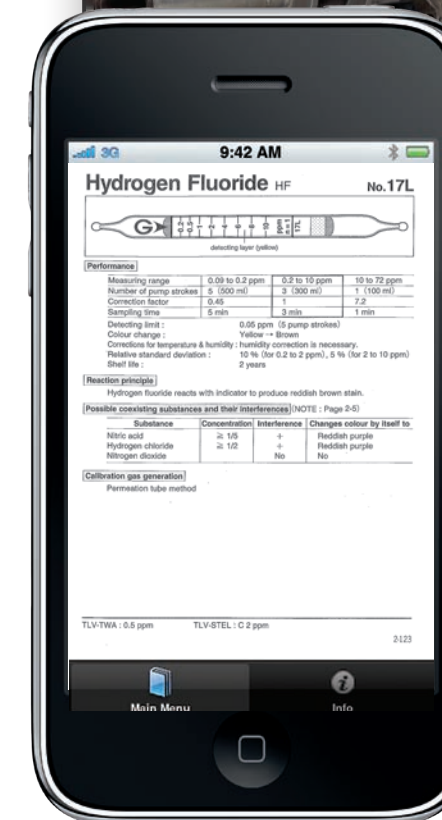

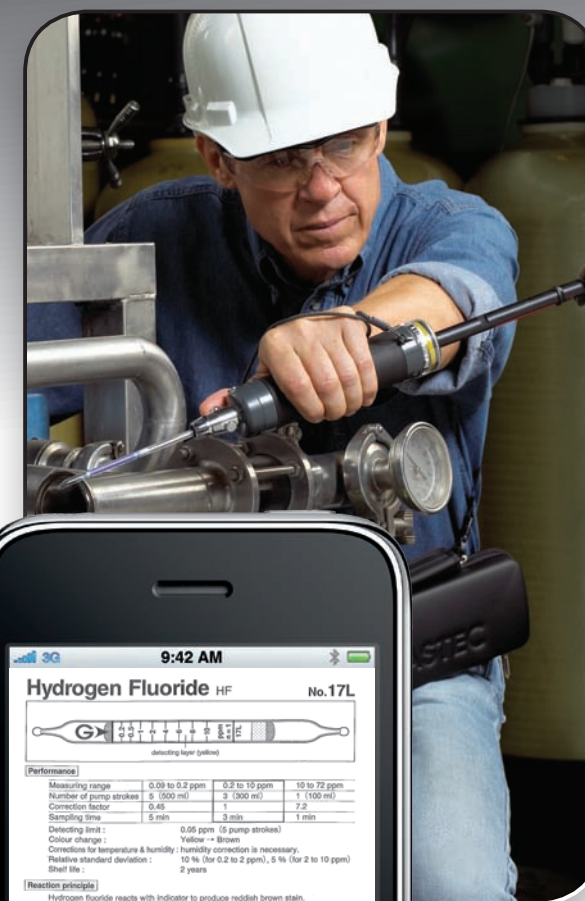

Access Gastec's complete line of Gastec pumps and tubes, sampling accessories and kits for Gas Detection, First Response/Hazmat Testing, Water and Soil Analysis, and Respirator Fit Testing. A prompt to upload updates ensures current data 24 hours a day.

The Main Menu is your gateway to a wealth of chemical detection information!

**Product Category** – access all Nextteq product offerings – view over 20 different product categories to narrow your search by Gastec Tube Type, Pumps, Accessories, Kits, Industry Kits, Respiratory Fit Testing equipment, etc. and get the product name, part number, image, and description. Carry a complete literature package on your phone!

**Chemical, Tube Number, or Tube Name** – Search by the chemical you're trying to detect, Gastec tube number or tube name and view the Instruction Sheet or Data Sheet. The technical information is always available when you need it most.

Exact images of Gastec Handbook data sheets and tube instructions for all detector tubes can be obtained instantly – no phone calls, no handbooks to carry, and no instruction sheet to unfold.

Nextteq App has pinch to zoom in or out so you can easily view:

- The actual tube drawing with the concentration scale printed on the tube,
- Performance chart data indicating the measuring ranges, correction factors and sampling times,
- Any chemical interferences with corresponding color change, and
- Any temperature and humidity correction factors if applicable.

The Nextteq App contains the complete Gastec Handbook. It's like having an IH on call 24/7.

### TLVs® at Your Fingertips

- Data sheets from Gastec handbook list TLVs® for each tube.
- TWA, STEL, and Ceiling values included as applicable. Notice of intended value changes are noted with an asterisk (\*).
- Explosive ranges (%) are listed for applicable substances.

### Operation, Troubleshooting, and Maintenance

- Sections include everything from the basics on how to perform a measurement, how to read a tube, interferences and reaction principles to pump leak test procedures and storage/disposal information.

Gastec tubes and pumps are manufactured by the Gastec Corporation. Nextteq is Gastec's exclusive U.S. master wholesale distributor.

# Gastec Accessories Expand Your Detection Capabilities

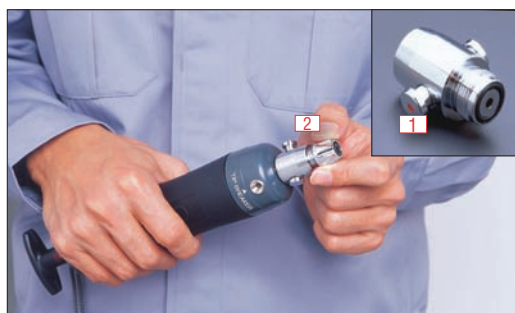

### Telescoping Extension Pole

1. Gastec GV-100 Gas Sampling Pump
2. Gastec No. 350BP Telescoping Extension Pole
3. Gastec No. 357 Rubber Shroud Tube Holder and Detector Tube

### 5 and 10 Meter Extension Hoses

1. Gastec No. 357 Rubber Shroud Tube Holder
2. Gastec No. 350A Extension Hose (5 meters or 16.4 feet)\*
3. Gastec metal fitting attaches to the Gastec Gas Sampling Pump
4. Gastec No. 350A Extension Hose attached to the Gastec Gas Sampling Pump

### One-Hand Adapter

1. Push button operation
2. One-Hand Adapter attached to Gastec Gas Sampling Pump

### Instructions

1. Remove the inlet Clamping Nut and Rubber Tube Tip Holder (A) from the Gastec Gas Sampling Pump (B).

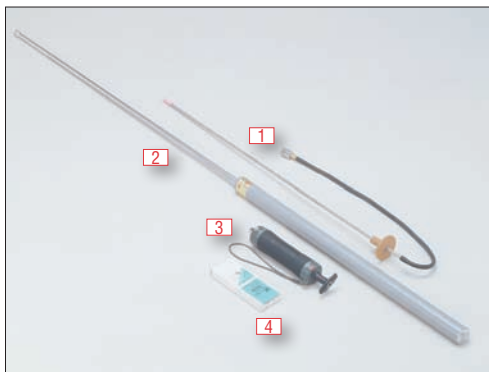

2. Thread the One-Hand Adapter No. GV-700 (C) in its place and replace the Inlet Clamping Nut and Rubber Tube Tip Holder (A) by threading it into the One-Hand Adapter.

### Hot Probe and Hot Probe Holder

1. Gastec GV-100 Gas Sampling Pump attached to the No. 340 Hot Probe by the No. 345A Hot Probe Holder
2. Gastec No. 340 Hot Probe
3. Gastec No. 345A Hot Probe Holder

### Field Soil Test Equipment

1. Gastec No. 360 Soil Sampling Extension Probe
2. Gastec No. 361 Boring Pole (Manual)
3. Gastec GV-100 Gas Sampling Pump
4. Gastec Detector Tubes

### Pyrotec Pyrolyzer

1. Gastec Pyrotec Tube
2. Gastec Pretreatment Tube
3. Gastec No. 840 Pyrotec Pyrolyzer
4. Gastec GV-100 Gas Sampling Pump
