## S+H Sneak Peek: Survey results indicate good market for safety pros

### **New Edition:** [Member Benefits Guide](#)

### [A Resource Guide on the Journey to Safety Excellence](#)

This guide allows you to adopt and incorporate the Journey to Safety Excellence philosophy into your workplace safety program.

The job outlook for occupational safety and health professionals seems favorable.

The results from Safety+Health's 2015 Job Outlook survey support findings from a 2011 NIOSH report that projected a shortage of safety professionals during the five years following the report.

### Key points

- Almost 9 out of 10 survey respondents said they consider their job "very stable" or "relatively stable."
- More than one-quarter of respondents said they expect their departments to hire additional staff in the next 12 months.
- Not enough qualified candidates exist to fill all of the new positions and existing roles that will be vacated as an aging workforce increasingly decides to retire, survey results indicate.

## CONNECT...with safety professionals all over the world

### [NSC Division Networking Groups](#)

As a National Safety Council member, you are invited to participate in a variety of industry/interest specific groups called "Divisions". The purpose of divisions is to allow safety-focused information sharing and networking with others in your industry. Benefits of

divisions include: networking with others in your field, attending industry-specific events and participating in safety-based discussions that impact your community.
